AND RIVER PLATE NEWS.

No. 5,913 | BUENOS AIRES—FRIDAY, FEBRUARY 17, 1882 | 21ST YEAR.

London and River Plate Bank
(LIMITED)
London, Buenos Ayres Montevideo, Rosario, and Cordoba.

Authorised Capital..... £2,000,000 Ster.
Subscribed Capital..... 1,500,000 „
Reserve Fund..... 175,000 „

Offices in Buenos Ayres—
CORNER OF CALLE PIEDAD AND RECONQUISTA

Current Accounts opened with Commercial Firms and private individuals.

Customers have the advantage of having approved Bills discounted—of obtaining Loans upon Negociable Securities, of Deposing Bills, coupons, &c., for Collection—subject to a Conventional Commission.

The Bank receives deposits either at sight, for fixed periods, or at thirty days' notice of withdrawal, Interest on which is regulated by the market value of money, the Bank notifying any change in Rates, by Advertisement in the principal daily papers.

Letters of Credit issued to parties travelling abroad.

Letters of Credit issued to parties for the purpose of purchasing Goods in Europe, the United States, &c, the terms of which can be ascertained on application to the Bank.

Parties wishing to bring out funds to the River Plate, can do so through the medium of the Bank's chief office.

ROSARIO, SANTA FE and intermediate Ports.
TIME-TABLE
OF THE
Buenos Aires and Campana Railway Co.'s Steamers
TRIDENTE & DIANA

The steamers TRIDENTE and DIANA, expressly built for the Traffic between Buenos Aires, San Nicolas, Rosario and Santa Fe will run as follows until further notice—

MONDAYS, steamer DIANA to Rosario and intermediate ports
TUESDAYS, steamer TRIDENTE to Rosario and intermediate ports
WEDNESDAYS, steamer DIANA to Rosario, Santa Fe and intermediate ports
THURSDAYS, steamer TRIDENTE to Rosario and intermediate ports
SATURDAYS, steamer TRIDENTE to Rosario and intermediate ports.

The Train will leave the Central Station at 3.15 p.m.

Passengers by these steamers will find excellent accommodation and good attendance, and merchants every security for their cargo.

The Company have made arrangements with the Central Argentine, Tucuman and Andine Railways for the through booking of passengers, goods and parcels between the principal stations on these Railways and B. Aires.

The Agency undertakes to receive cargo for the steamers at the warehouse of the sender and to deliver same to the Consignee, also to take out the necessary Custom House permits.

For further information apply at the
AGENCY
Calle Piedad 35

N.B.—Cargo for these steamers will be received at the Campana Railway Company's Goods Shed at Retiro from 6 a.m. to 6 p.m. on week days.

Maisonette.
SAN JOSE DE FLORES
TO BE LET, from April onwards, this commodious substantially built and admirably planned and appointed Mansion, at present, and for several years back in the occupation of William Wilson Esq.
It is situated in the healthiest and most convenient part of Flores and stands in the midst of its own tastefully laid out grounds of over 12,000 sq. varas.
The house has an unusually specious entrance hall, with Minton tile floor, and the Dining and Drawing rooms are handsome large and well proportioned. In addition to 11 other rooms it contains Antecomedor, Pantry, Store-room and Wine cellar, and in the patio adjoining the house are found all the usual offices and servant's quarters.
Conveniently placed at some little distance from the house are:—an excellent Cottage of four rooms, coachhouse, harness room and capital stabling for four horses. There is also ample accommodation for several cows, for which a portion of the land has been laid under alfalfa.
The house and outbuildings are in excellent repair, and the grounds in the best possible order.
For terms and further particulars apply at 149 Calle Rivadavia.

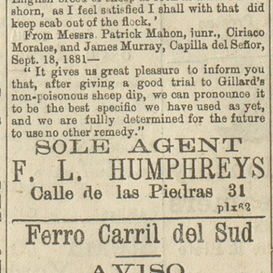
GILLARD'S
SHEEP DIP



This Dip is most carefully prepared by the latest improved methods and can be used with
COLD WATER
Supplied to the Prince of Wales's Farm at
SANDRINGHAM
TESTIMONIALS.
From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.
From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.
From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—
"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that did keep scab out of the flock.'
From Messrs. Patrick Mahon, junr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—
"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fullly determined for the future to use no other remedy."

LATEST NEWS.

PRESS TELEGRAMS

The following epitome of the latest news by telegraph, from all quarters is taken from our colleagues—

Montevideo Feb. 16

Chambers opened to-day.

Nothing by the Gironde. Canadian and Umberto anticipated her news.

In Germany the Papal Question and in Russia the Jewish engross public attention.

St. Petersburg paper publishes violent article against French Government for the impunity of the *Intransigeant* after its publishing the articles of Vera Sussonlitch and Pedro Sandroff.

New York *Herald's* assertion that if England will not consent to modify the Clayton-Bulwer Treaty, the United States will compel her to do so, caused some dissatisfaction in London.

Cordoba 15

Provincial Bank raised open credit of Government to 50,000 pats.

San Juan 15.

Office for hiring railway navvies opened.

At a meeting of the Usuo Estancia Company the Directors announced a profit of 18,000 pats for second half-year.

Rosario 15

Expropriation of lands adjoining Central Argentine Railway has commenced.

Montevideo 16th.

In his Message opening the Chambers yesterday President Vidal made the usual sonorous allusions to the Constitution, the rights of the citizens, law and order, and said there was a well-equipped army ready to defend all these blessings.

Gower-Bell Telephone tried to-day between Bolsa and Le Bas's house. Result pretty good.

Number 4366 won 16000 pats in to-day's Lottery.

Heat awful.

Vidal will resign on 28th and Santos be named President on March 1st.

Illuminations and other rejoicings ordered.

THE
PORT WORKS OF ROSARIO

The newspapers and our correspondence from Rosario make us acquainted with the steady progress and development of that important town. The Custom-house produced last month two hundred and nineteen thousand dollars, and our letters speak of the large number of buildings in course of construction, the streets in process of being paved with 'adoquines,' and a new church and a large pile of buildings for the Municipality under contract. But the Rosarinos are burthened with a permanent grievance, the existence of which is a great stain on the last two National Administrations.

The port of Rosario is, without doubt, the safest and most commodious of the Republic. Placed at the head of navigation for large ocean-going vessels, it is at the same time the chief port of entry of eleven provinces, and likewise now for the northern part of Bolivia, possessing a Custom-house the second in importance in the Republic. Notwithstanding the evident necessities of the port, the National Government has never spent a farthing there except to build a Custom-house. This was indispensable, for they were obliged to have a house to live and transact their business in; but they have not built a solitary wharf, nor initiated the slightest facilities for discharging or loading, which operations are effected in the primitive fashion of olden days. At the head of the barranca stands the Central Argentine Station, almost within stone's-throw, and the commercial community are doomed to witness the discharging and loading in lighters, the merchandize dumped on the banks, loaded in carts and carried to and from the railway, causing waste of time and money. This is the great grievance of the Rosarinos, and we sympathize with them and will take their part, and with more readiness that our native colleagues have ever treated the subject of improving the port of Rosario with marked indifference.

If our memory serve us, the Chamber of Deputies for the nation voted a sum of five hundred thousand dollars for a Government mole or wharf in Rosario many years ago. Some years past we remember that the National Government was for some time in treaty with the Directory of the Central Argentine Railway, and it was currently reported that the latter was to do the work under a National guarantee of 7 per cent. There was joy in Rosario for a time; but our friends were disappointed. On which side the fault lay we cannot pretend to say, but it was understood that the Directory declined to take the works in hand. It was then that a private individual, whose name is unknown to fame, but which is, we believe Rodriguez, succeeded in making a contract with Government for making the moles and the direct line of railway from them to the Central Station. Apparently no one had any confidence in the abilities of the new contractor to carry out the enterprise, and we suppose the affair was a speculation. Certain it is that years have passed and Rosario is still clamouring for the port facilities she should have possessed a dozen years ago. Is is hardly fair that we in Buenos Aires should be filling up scores of columns in our daily papers about our own port improvements and spending millions of money, and asking for millions more, and quietly ignore the right of Rosario, the second city of the Republic, and a city the Republic may well be proud of.

In reference to this subject we have seen that a law has been sanctioned, authorizing the expropriation of the land necessary for the short line of rails from the moles to the Central Station; and we have lately seen a telegram published from the President to a friend in Rosario, saying that he hoped the works will soon be commenced. Mr. Sarmiento and Mr. Avellaneda made the same promises. Meanwhile, it appears the Rosarinos are not equally sanguine, for there is a complete silence in reference to the contractorrs, Messrs. Rodriguez and Co. and their doings, that is, if they are doing anything.

NEW CAMPS.

Dear *Standard*

For the benefit of the investing public the communication of your talented contributor 'Patience' merits a reply. The article that called forth his letter, written in your happiest San Blas style, had a foundation of truth, and your figures can be defended even against an old hand like the Pavon subscriber.

"My wish has always been to secure good camps, but I failed to buy and I am very sorry that I did not follow the current.' Had Patience purchased one league of the 10,000 m/c land, his letter would have remained in the ink bottle, as it is strange that all those who are most alarmed about the danger of a fall in the value of land forgot to purchase when it was cheap. My advise to him is to secure some land at present prices, as he will never have the opportunity again. The first buyers of the $10,000 lands were certainly mostly men who did not intend to stock or keep them, but they have almost all sold to others of a different stamp, able and willing to 'poblar' if they cannot get 100 p. cent profit from their less enterprising neighbours.

It is not true that all wish to resell, and to prove this, I will cite the following instance. A friend of mine wished to purchase a block of 15 to 20 leagues land in the district already settled on between Lincoln and Bahia Blanca, and although he offered 20 p. cent over market quotations, he is still without the camp and will most likely have to buy some of the National territory outside the Alsina ditch.

Why should it cost $700,000 to settle on a league of land? The Scullys and Murphys when they settled on the new lands took for capital a small flock of sheep and a spade and shovel, and to-day I can pick out three Irishmen with sufficient capital to buy up the 5,000 leagues of National land at market price, and still there are people who talk of wild land speculation.

Rubbish! Land speculation has not commenced yet. If a capitalist purchases 50 leagues land, surveys and divides it, and sells at a profit to 50 men of small means, what is the difference between him and the merchant who imports 100 bales of calico knowing that there are 100 small dealers requiring a bale each, all willing to allow him 10 or 20 p. cent profit on cost price of article.

Let us see how much of this new land there is. Starting from Guardia de la Esquina in Santa Fe to Rio Cuarto in Cordoba, then to Mercedes, San Luis, then follow the line of 7th Meridian to Rio Colorado and that river to the ocean, we enclose an almost uninhabited territory of about 7000 sq. leagues. West and south of limits mentioned is a sandy desert, unfit for grazing, so that at present our available land for surplus stock is about the above figure. Now the present stock of sheep in the Province of B. Aires alone is not less than 60,000,000, and the increase this year may be safely estimated at 12,000,000. Should the grasers consume 2 or 3,000,000 there will still be a surplus stock of about 15,000,000 sheep. What will we do with them? On the virgin lands sheep thrive exceedingly well during eight months out of the twelve, so that the sheep farmer must grow some fine grass to keep his flock in condition during the winter. I do not see any reason why one man with his plough cannot raise sufficient fine grass for his flock in one year. Besides, the greater part of the outside lands will carry on an average one flock per league without any extra work being required to keep the sheep in condition.

On the so called inside lands we have already too heavy a stock of cattle, and judging from the appearance of present season, there will be a large increase, say 3,000,000. Now, for cattle the outside land requires no preparation, and the owner of 1,000 head if he has no money can do without it until he makes sale of novillos. His rancho can be erected by himself and peon. The successful estancieros were not capitalists at their commencement, and there is as fair a field open now before an owner of 500 cows or 2000 sheep as in the old times when the Indians drove the National troops into Azul and the Government sued for peace. How long has it taken to poblar the great extent of country between Azul and Bahia Blanca? Four years! About 1500 sq. leagues settled on in four years. Sheep are doing well on those camps, better far than in Chascomus or Dolores.

'Patience' says that camps are now overstocked but allows that he cannot get a league of land between Arrecifes and Parana (Rosario?) for $100,000 a year. Allow me to tell him that good land in Arrecifes is worth $200,000 per league per annum, land that 20 years ago was 'pasto fuerte' and could be purchased for less than a year's rent now. Sheep were then worth $50 'al corte,' and the same stupid cry was prevalent against new camps, and the enterprising sheepfarmer who moved out to Rojas, Pergamino or Arrecifes, to say nothing of Pavon, was looked upon by a large

Can be used with COLD WATER. Sole agents MOORE and TUDOR. BEWARE OF IMITATIONS AND FALSIFICATION.

majority of experienced men as a dangerous speculator or a reckless fool.

Why is 'Patience' so severe on enterprizing men? What have the dentists done to him? It must be a long time since he was in the city, as the dentist of to-day is as different to the old style as can well be imagined, and should not be denied grass and water if he has the pluck to inspect the land, the money to buy it and the luck to find estancieros like 'Patience' who will have to buy it from him at its real value when they are tired grumbling. 'Patience' says, 'who sell first loses less,' and five minutes before laments not having invested. There is yet time. Let him not leave all the land for the military men etc. especially as it riles him to see any man purchase land except he has $700,000 to invest in improvements. I am a long time in the country, Mr *Standard*, and have known a great many men like Patience, industrious men, gentlemen and scholars, but they knew too much and rarely became successful estancieros. They *knew* the land was only worth $100,000, but some rascally speculators would persist in paying 150,000. Of course if the speculator (a dentist perhaps) kept away, 'Patience' would have the land at the price; that can't be denied. Those cursed speculators.

It the Indian still occupied the pampa I could understand argument against going West, but with no obstacle before us, are we not to secure the soil for ever, because, forsooth alfalfa does not grow in the new camps spontaneously, or because there are mosquitoes and no mosquito curtains to be had anywhere. With such estancieros as 'Patience' the frontier would be still in the Matanzas river and the savage besieging Lujan.

Estanciero

EDITOR'S TABLE

The Gironde's mails were delivered yesterday morning. Latest London dates are 19th ult. but there is nothing in the papers beyond what we gave in our Press summary, yesterday morning.

An 'Estanciero' has sent us an answer to 'Patience', in reference to the burning question of Camps. We find opinion very much divided on this topic, but we stick to our text: Whoever doubts the future of this grand country loses.

The National Theatre opens this evening and, awfully hot as the weather is, a high life squeeze may be fully counted on. The theatre is a very pretty one, beats Colon hollow. The proceeds of to-night's performance will be given to the fund for raising a memorial to the late Don Eugenio Blanco.

The auction at the United Club was a decided success, and we hear that the sale realized $ 20,000 m|c more than the Committee expected, on which pleasing result we congratulate them. The splendid billiard table was knocked down to the Mineral Water Establishment for $11,000. The books sold splendidly. We remarked Messrs. Davison, Moore, Wilder, Dr Grace and others amongst the buyers. Our inestimable contemporary *Punch* fetched $70 per volume; *Chambers* the same, and Pope's works fetched a good price, amidst uproarious laughter through the auctioneer mistaking the author for His Holiness the Pope. Our contemporary in Calle San Martin was fortunate enough to secure twelve years' files of the *Standard*; and two years of its own files were knocked down at one paper dollar per annual volume. So closed this interesting auction.

We have been requested to make enquiries about Mr Charles A. Hollander, born at Sedan, France, October 25th 1847, left New York for Brazil May 22d 1867; then employed by Messrs. H. M. Lane & Co., No. 15 Rua Direita, Rio de Janeiro. The last advices from him are dated December 24th 1868, from Buenos Aires. Any information will be thankfully received by his mother, Mrs. J. Hollander, P. O. Box 1053, N. Y.

There is splendid news from San Antonio, near which place the borings for potable water have at last proved successful. Stranger still, some leagues off another spring has been discovered bubbling up, its waters tasting like the best French brandy! There is quite a rush to the spot by the 'paisanos', and a grand Joint Stock Cocktail Company to work the spring is already mooted.

We have, through the kindness of a subscriber, a late paper from the Cape. Should any of our subscribers be thinking of going to that place, we advise them to read the following extract before they take leave of their friends, on or off 'Change:—"The *Daily Independent* states that inquiries for work are becoming more frequent daily, and the number of the unemployed is steadily increasing. There are lots of well-educated young men idling about the Camp, complaining that they can get no work to do. All they think themselves fit for is to sit on a stool in an office for four or five hours a day, nibbling the end of a penholder, and drawing from £5 to £10 a week for doing it. There are plenty of such berths in Kimberley, such as secretaryship of companies that are in a state of semi-collapse, &c., but, unfortunately, they are all occupied. There is no excuse for a healthy young fellow to be idle here. If he cannot get a situation in an office, or any post where his work will be congenial to him, he can always get work in the mine or on the floors. Many a better man has dug before him. Kimberley is the worst place in the world to be idle in. Young fellows with nothing to do loaf away their time in canteens, mix with all kinds of people, and finally, when their cash and credit are both exhausted, they are very likely to fall into the hands of the I D B's, who are always on the look out for recruits. There are plenty of educated men doing work which is anything but to their taste in South Africa. We know of one case in which a man, who had held a first-class position as a journalist in England and America, and who had a university education, is wo king as an ordinary navvy with a pick and shovel."

We have been favoured with the report of the German Hospital for the year 1881. Last year has been a most prosperous one; two new pavilions were built and the subscriptions shows an increase: 205 patients entered the hospital during the year, 18 of whom died and 26 still remained under treatment in the hospital in the beginning of this year. The treasury shows a balance of 280,000$ m|c. A very important arrangement has been made with the German, Dutch, Belgian, Danish, Swedish, Norwegian and Russian Consulates, whereby the mariners of the respective nations will be attended gratis, on condition that the ship captains pay 2$ per ton, and as a minimum 400$ and as maximum 700$ m|c. The arrangement is a naturally satisfactory one. We beg to congratulate the Hospital Committee on the year's working. Friends of the hospital are hereby reminded that contributions to the library are gratefully received.

Those of our readers who wish to avoid the sweets (?) of Carnival on Monday and Tuesday next had better go to Palermo and enjoy the fresh breezes and at same time witness the Annual Cricket Match between Montevideo and Buenos Aires. Last year the match was played at Montevideo and resulted in the victory of Buenos Aires, and it is not improbable that the tables may be turned, as our men are said to be short of practice, and in Messrs Stokes, Christian and MacAdam the other 'orilla' have the basis of a strong team.

It is said that March 1st will be declared a holiday, for the inauguration of the Exhibition. Another 'on dit,' far more likely to prove true, is that the Show cannot possibly be ready for opening on the date in question, April 1st (absih omen!) being a more probable one.

There was not the slightest sign of any preparations for Carnival yesterday in the streets, and everything forbodes the dullest holiday of the kind ever known here. We look on this fact as indicating an improvement in the moral tone of the population.

Advices from Azul, Tandil, Juarez and other Southern partidos report a terrible drought down there and great fears of camp fires.

A shocking attempt by a father, to murder his son, a lad of 14, is reported from San Nicolas. The brute drove a knife into his child's breast.

The Club Industrial, the Fine Arts men etc. are all to be turned out of their quarters in the Colon Theatre building, to make room for the proposed alterations in it.

The Rural Society of Chascomus announce another Fair for next month.

The ladies of Chile have sent a magnificent collection of oil and water paintings, embroidery etc, all done by their fair hands, to the Exhibition.

We have to thank Mr Latzina for sending us yesterday a copy of his interesting brochure on the Transit of Venus, on 6th December next.

The Anglo-Saxon family gush over the late President Garfield appears to have worn itself out already. Our estimable colleague, the *New York Herald*, declares that Great Britain must be *forced* to modify the Clayton-Bulwer Treaty, and that no Britishers are wanted in the Western Hemisphere!! [Oh! Jonathan, this is too unkind, after winning our Derby and saluting the Union Jack at Yorktown too! What ails you, dear old cus?] Our New York contemporary's rude bunkum will certainly not be endorsed by the Press or the People of the United States: but there was too much cousinly humbug during President Garfield's illness, and this tiff about the C. B. Treaty is only a natural and temporary reaction from the fever heat of family affection witnessed some months ago. Acorning to news that wil be found in our Supplemenf, the Panama Canal, which has given rise to the present little unpleasantness, is all but a dream at the best.

A Cricket Match will be played at Chascomus on Monday, the 20th inst. between the Zingari and Adela Cricket Club. After the match the cricketers will be entertained at a ball given by Mr. Auld.

Number 10,145 won 15,000 patacons in the San Luis Lottery yesterday.

The *Nacional* says that news was received in Rio on the 11th of a terrible fight with the Boers in the Transvaal, and fresh disturbances in Irelaad. If so, Havas where art thou?

Associated Press Telegram

HAVAS' AGENCY

Washington 15.

The Chamber of Representatives in its last session adopted a Bill presented by one of the members protesting energetically in the name of individual liberty against the series of incarcerations effected by the English authorities in Ireland.

ON 'CHANGE.

Feb. 16th

Patacons	25.03
Cedulas A	99⅞
Cedulas E	83
National Bank Shares	127½

The market to-day emerged slightly from the great dullness of the last few days. Although no gold sales were marked on the black board, outside the ring several transactions were effected at 25,02 and 25.03. The gold business for the present, nevertheless, is at a complete stand-still. The money market is very tight and the applications for discounts at the banks are very numerous. There is an opinion in the market that exchange will rise next week.

There was more animation in the Cedula market, and the brokers looked in good spirits as the figures on the black board rose. Series A continues firm, operations done at par and ⅛ underneath; these rates rule both for cash and other dates. In Series E the sale of 45,000 looked refreshing, but the scrip does not rise and is fixed for cash at 83 and 83½ for end of month. The operations to-day reflect much more activity than has been usual in the course of the week. The branch in Belgrano is working a ready, and neighbors thereabouts can take out Cedulas and mortgage their properties, without taking the trouble to come into town.

Gas Shares (primitive) are in demand in the market.

In National Bank Shares the situation is eminently bullish, owing to the fact that several bears are buying in small lots what they sold during the month; this turn in the face of affairs appears suspicious to the bulls. Those who read the attacks of an evening colleague last night resolved to attend the meeting in the Bank parlor; the attacks in question have lost increased importance and influence to the report of the Comision de Cuentas. All have already anticipated the contents of the report. The shares in the market are very firm; rates opened at 128 for the end of the month, rose to 128⅝ and closed at 128½. Rates for March are again at 124. The sales for cash continue insignificant. The operations during official hours did not amount to much, and few shares were sold. There are few sellers, owing to the approaching payment of the dividend. At 2 p.m. many brokers left the Bolsa to attend the meeting.

The sales at the ring were as follows:—

Cedulas—
For cash A 26,000 100-99⅞
For cash E 4,000 at 83
For Feb. 17th A 5,000 99⅞
For Feb. 17th E 45,000 83
For Feb. 28th E 18,000 83-½
For March 31st E 20,000 82½-83
For March 31st A 5,000 99⅝
Sales, 105,000.

Nat. Bank Shares—
For cash 50 shares 127½
For Feb. 28th 2,100 shares 128-½-⅝-¾-½-½
For March 31st 100 shares 124
Sales, 2,250.

The failure of a Belgian firm was whispered on 'change, in connection with the wool business of the River Plate. The firm in question had been buying wool in this market for the last four years.

Messrs Stiller & Laas sent round circulars to-day, informing the public that they had started a lithographic establishment 'La Union,' 160 San Martin. The premises of the new firm are eminently lucky, where once the *Standard* Office was installed during ten years; besides there are 70,000 ounces in the old well in the back patio. We wish the new enterprise all the success it deserves.

Three lots of National Government lands have been sold near Trenquelauquen at 55,000 m|c per league. One party, who owns 100 leagues hard by is about to 'poblar.'

Whoever wants to buy fine sheep-lands on a railway and not far from town, should attend Baltar's to-morow (Friday); the lands will be sold without the least reserve.

The sale we referred to two days ago of novillos in Entre Rios at $f.13, comprised 4,000 animals or thereabouts.

We are requested to state that on Monday and Tuesday next, being days of Carnival, there will be no attendance at the British Consulate for the despatch of business, unless previously notified.

The beautiful quinta of Sr Silveira in Flores, overlooking the picturesque point of the city's surroundings, has been rented to Sr Herrera, who pays $9,000 m|c. per month. Sr Herrera remains with the quinta and four squares of the quinta, the remainder he has sub-let for $8,100 m|c per month. Mr H intends establishing a matadero there, which means cheap mutton chops in Flores. The pantelephone connects the quinta with Barracas and the Corrales.

On the 10th of March we may expect the new Buenos Aires Municipal lottery.

The Regira of Portello high life continues Montevideowards. Several well-known friends have already left this week, amongst others the wealthy Irish sheepfarmer, Mr S Morgan. On Saturday next a number of B. Aires families will leave for the Mount.

The message of the Provincial Executive to the Chambers is awaited daily. The dark horse, it appears without doubt is Ensenada.

To-day large amounts were borrowed by holders of National Bank Shares at 12 per cent interest, and at 90 per cent for the Shares, one party took about $f 50,000; large amounts are being negotiated.

Messrs Liz Klett have received their lot of wheat from their splendid chacra in Pardo; the wheat sold in the market at $180 m|c per fanega.

Mr. Trifon Ghiraldes has been rehabilitated by the Camara Sindical, since his honorable settlement of all pending accounts.

The report of the Comision de Cuentas of the National Bank was distributed to-day at an early hour, and brokers and shareholders read the contents with interest. Messrs M Correa Morales, A F Gomez, N E Vidola have drawn up the report in a simple and lucid manner. The figures of the report of the Directors turn out quite correct, but the Comision de Cuentas by their new pamphlet has disclosed to the public still more eloquently the great future that awaits the Bank. The figures are well known to our readers, as we published same a fortnight ago. As regards the protested bills of the sucursales the following is the list:—

Sucursal.

Rosario	$f.19,084.55
Gualeguay	8,106 52
Concordia	55,199.47
Gualeguaychu	00,000.00
Concepcion	200.00
Parana	00,000.00
Corrientes	592.75
Cordoba	16,054.51
San Luis	00,000.00
San Juan	9,038.76
Mendoza	17,215.83
Catamarca	25,976.32
Rioja	875 00
Tucuman	00,000.00
Santiago	619.97
Salta	310.42
Jujuy	00,000.00
	$f.152,638.00

These amounts, that the branches hold in protested bills, are all the Bank considers bad debts, since it was established. Furthermore, the 50,000 pats deducted from the profits of 1881, in consideration of these protested bills, seems quite sufficient to the Comision de Cuentas. With reference to the increase of the capital of the Bank, the subject is considered a serious, and on the Bolsa it is generally thought that the present capital of the Bank is quite enough for the present. The plain facts are that the Bank's branches with a capital of 2,245,000 gave a clean profit of $323,585.45, which means 14-40 o/o on the capital; that all the Sucursales have paid their way, with the exception of one, involving a loss of $53; that the operations of same are being extended every day and that next year's report will be as favourable as that of this year. The report of the Commision is furthermore a wet blanket on all late attacks against the Bank.

The R.M.S. Minho will sail on the 20. taking the following cargo hence:—

For Europe—
1014 Bales
15ee Dry Hides
94oo Salted Hides
From Montevideo for Rio—
3ooo Bags Cerea's
130 Pipes Tallow
For Europe—
46o Bales,

The Nuraberg has arrived in Montevideo, after a very fast trip from Bordeaux to Montevideo.

Telegrams from London report Argentine Treasury Bills at 106; it remains to be seen if this quotation is ex dividend; in this case the stock would represent over 103 o/o the previous quotation.

Some exchange was done to-day at 49½; rates 49¾—⅞ Montevideo exchange ¾—1 o/o premium; discounts continue 8 o/o paper and 7 o/o gold.

Messrs. Johnson Gaibisso & Co. have chartered the Dutch brig Corne ia to load crushed bones in Rosario for the U. States at 46.

The well-known shipping circular of the H. O. Green will be continued under the name of Mr E C Green and can be had at 6 Calle Reconquista.

A private letter from Rio states that as the Gironde was leaving Rio telegrams were received reporting very serious riots in Ireland and a bru h with the Boers in the South of Africa.

Mr P Ham sold this morning Mr James Dennon's wool, some 2000 arrobes at 80 m|c per arrobe.

8000 arrobes of wool arrived in the Once this morning: nearly everything sold. The arrivals continue very slow, the prices of the market are firm and everything is taken up as fast as it arrives.

Baltar's auction was crowded to-day with a fashionable attendance; the mart looked like a lady's boudoir. Furniture, mirrors etc, all sold at good prices.

At afterhours 5000 Cedulas Seris E were sold at 83½ and 5000 Serie A at 99⅞. Gas Shares (primitive) were offered on the market at 2,000 m|c, no buyers.

In National Bank shares the Bank meeting made a favorable impression. Rates were very buoyant, and rose fast from 128½ to 129. Over 2000 shares were sold and the market closed firm at 129. We noticed very many 'casamientos' done at 129.

The Entre Rio Legislature has approved of the establishment of a branch of the Mortgage Bank in that province.

From the saladero Cibils in Montevideo 3000 hides have been sold to-day at 72 and 73 rls: weight 67 to 68 lbs.

Messrs Cibils of Montevideo have sold their tallow of March and April, 700 pipes at 18 rls.

Messrs Schwartz's large boilers at the Continental Exhibition began working yesterday.

The Mortgage Bank has appointed Dr Lucio V. Lopez, its lawyer, to settle the lawsuit with Padre Cabeza, the head of the San Martin School of Arts and Trades.

The neighbours of the Once have got up a petition to pave Calle Catamarca, right in front of the Exhibition palace. The move is both a plausible and necessary one, and we expect Lord Mayor Alvear to comply with this very just request.

The high prices paid for wool in the plazas are attracting much attention; they are fully 10 per cent higher than the rates in the European markets. The buyers base their purchases on the fine yield of the qualities and continue the operations in spite of the telegrams and bad advices from the continent.

The Sales at afterhours were—
Gold—
Nothing done
Buyer at 25.02
Cedulas A—
For cash A 5,000 at 99⅞
Cedulas E—
For cash E 5,000 82½
National Banks Shares—
For Feb. 28th 800 shares at 128½-¾-120
At the South Market some business done at the following prices:—
43 waggons with produce arrived.
22,158 ar. of wool sold at from 62 to 100

The following clearances are reported in Montevideo:—
Span. polacra Isidra for Pernambuco with 195,903 kilos jerked beef.
Span. patacho Marina for Brazilian ports with 209,417 kilos jerked beef.
Ital. patacho Tunisi for Rio Grande with 1,415 lastres salt and 25 boxes oil.

The mails from Europe report a great panic on the Paris Bourse, on the 19th of January. The intensity of same may be calculated when the Union Generale Shares tumbled from 2,400 francs to 1,100; in face of such differences, where are National Bank Shares in the Buenos Aires market? This drop of over 1,000 francs in the Union Generale led to a very disturbed and stand-from-under feeling amongst holders of the shares on the Bourse, and many brokers packed their trunks en route for the New World. Both in Lyons and Paris the situation of the money market was considered desperate. At the Bourse the liquidation of the month was looked forward to with an anticipation of losses much severer than those we received by telegraph. The cablegrams announced a deficit of close on 100,000,000 francs in the Union Generale, but the mails foreshadow much heavier differences and losses. Mr Boutoux, of the Union Generale, appeared to be in great straits, and no wonder, unless he had finally discovered the philosopher's stone, in order to satisfy the expectations of his shareholders.

Dr Wilde handed over yesterday the City Improvements offices of the Capital to the Vice-President of the Commitee, Dr Wenceslao Posse, who now remains temporarily at the head of the department, until the National Government appoints a President. The future President of the Works will be Mr Cambacens, in all probability. We hope the gentlemen in question will devote all their time and energy towards completing these works.

Over one thousand "espedientes" were yesterday transferred to the National Courts.

The Municipality has collected in taxes for the month of January, over $2,000,000. On Saturday evening all the Municipal employees will be paid their salaries for February, in view of Carnival expenses.

The Governor of Patagonia, Colonel Alvaro Barros, has not given up hopes of finishing his Artesian well in San Antonio harbor; he clings to his water theory with the same abnegation as whales. Although the San Antonio well was a signal failure, the peones and officer Massa Killed and the machines swept to the foot of the Cordilleras, the hobby of the Governor is as strong as ever. It appears also that an unfortunate 'baqueano' went down to the scene of the disaster last month, saw water in the narrow aperture, where the perforators once worked, at two yards depth from the surface, and tasted same; the water tasted like Patagonian whisky, since the baqueano states that it was not very bad and he is still alive. We, for our part, believe that the late storm in the South filled the hole with water, and that the saltpetre nature of the clay communicated an alcoholic taste to the water; the baqueano, who very probably knows little or nothing of Artesian wells, must have communicated these facts to the Governor, who now proposes to continue the works at San Antonio; evidently the wish is father to the thought. This Artesian well is doomed. The very Indians saw the joke when they cleared out with the perforators. There is no necessity of spending any further money on the well, and it would be far better to devote the funds to colonization on the smiling banks of the Rio Negro, where there is plenty of good water, good land, but few brains and little energy to stud them with thrifty emigrants.

The Custom House receipts keep up very well. The receipts to date amount to something over 700:000 pats; this gives an average of 54,000 pats per working day of the fortnight.

6 to 600 pipes of tallow have been sold in Gualeguaychu at 15 rls. gold.

Our enterprising colleague, the *Nacion*, publishes the following commercial telegram:—

"Bordeaux, Feb. 15th

"Tallow falling.
"Sheepskins downward tendency.
"Revival expected in dry ox hides."

The following figures of the trade of France in 1880 will be found interesting:—

Imports—
Food ..... 1,750,895,000 francs.
Raw materials ... 2,398,176,000
Manufactured do.. 528,611,000
Various 268,756,000
Total ..... 4,946,448,000 francs.

Exports—
Food ..... 797,087,000 francs.
Raw materials .. 661,156,000
Manufactured do.. 1,920,155,000
Various 214,044,000
Total ..... 3,592,442,000 francs.

Over 300 boxes are stored in Rosario for the Continental Exhibition. The exhibits are transported very slowly, and at the rate they arrive the Exhibition will not be ready for the 1st of March. We believe the contract of transport of packages has been made with only one steamer.

The proprietors of the Calle Florida and Victoria are contributing funds for the decoration of same. Several gentlemen have given 1,000 m|c each, and everything augurs a fine corso along the two streets.

The Santa Fe Government has already given the necessary authority for expropriating the land in Rosario necessary for the extension of the Central Argentine Railway to the river. The cartmen of the place are in very low spirits, as this extension of the railway places them in the street; they must now sow potatoes and wheat in the colonies, where they will become productive agents.

The French barque Anne Cecilie has arrived in Rosario with a full cargo of railway materials, sent by the National Commissioner in Europe, Don Alejandro Paz.

The neighbours of Barracas are sorry to hear that Mr G W Atkins has withdrawn from the Presidency of the Comision de Higiene of that district, owing to disagreements with the Inspector of the Comision. Barracas thrived under Mr Atkins' care; no fires, no robbers, no dirty conventillos, no abuses, were the main characteristics of Mr Atkins' term of office. All will regret his withdrawal.

Advices from Tucuman state that the sugar-canes this season are smaller than usual, owing to the very dry weather. Some plantations were so magnificent at the beginning of the season as to leave room for very brilliant anticipations, but their growth has been stopped for some time.

The miscalculations in the flax growing this season point to the inexperience of those who entered this new industry. The yield in general will be about one-fifth of what had been anticipated. One party who expected several months ago a harvest of 16,000 arrobas, and had made contracts on the strength of those calculations, could only produce 3,000 arrobas and a fraction. The quality of the flax is also very deficient, and farmers and chacareros will profit by this year's experience when sowing next time.

The stock of wool at present in Montevideo is calculated at something over 400,000 arrobas, already ⅔ of the clip has been sold. Calculations, therefore show that the Banda Oriental must have produced this year about 2,000,000 arrobas.

The mails from Rio bring the following news:—

Exchange—
Banks retired on the 1st inst. to 20⅜, at which there appeared a good demand. On the 3rd they lowered the rate to 20½, when takers held back and the rate again became firm, Banks drawing on the 6th at 20⅜ and advancing the rate gradually to 20⅝ on the 7th. Also on the 7th a large business in Bank paper was done at 20⅜, but this rate was not maintained, it being understood to be business in execution of orders.

The improvement is mainly due to the fact that the Bank rate in England has not been further raised as was feared; and the activity in the markets in the North and South has had a good effect on our Praga.

There has been no large supply of private paper and the higher rates of exchange here operated to curtail business, so that it may not be possible to sustain the present quotations. The latest rate is 20 13/16.

The business in paper on France has been limited. Private bills have been passed at 459 to 467 reis per franc. The Bank rate has varied from 461 to 471 reis per franc.

Sovereigns—
Accompanied the variations of exchange.

Sales: February.	Sovereigns.	
1st	500	at 11:870
1st	1,500	11:870
1st	140	11:870
1st	1,000	11:880
4th	5,000	11:950 to 24th-28th
4th	1,000	11:920
4th	1,000	11:920
6th	10,000	11:920
6th	1,000	11:860
6th	1,000	11:830
7th	3,000	11:780
7th	25,000	11:800
7th	1,000	11:820

Money—
We appear to have entered upon the new year with slightly dearer money, but the coffee trade being in such a precarious position it is doubtful if present rates can be long maintained. This situation has had an adverse effect on our Stock and Share Market, wherein many of these securities have risen to too high a level for the return they yield, it being now difficult to find any really good security that will yield 6 per cent on purchase price.

We quote Discounts, from last rates paid:

4-5 o/o	per ann. for	30-60 days
5-6 o/o	"	3- 4 months
6-8 o/o	"	4- 8 "

The Banks all allow 3 o/o in account current and the time does not appear to be remote when the Northern Provinces will be obliged to return the large masses of paper currency which they have borrowed from the capital to move their extraordinarily large Sugar crop, then we must naturally expect a fall in the above quotations, as there is nothing here to compensate for the surplus currency which must return.

Coffee continues its downward course, On the 1st of February the cable brought us news of the Dutch sale at 29 cents for good ordinary Java, a price so low that this generation had never before witnessed it for such coffees.

The American Markets drag on at 9½ cents for best average of the current Rio crop or 9¼ cents for Fair grading, but it is plain to any thinking person that the shrinking in values cannot fail to tell heavily on Brazil and her foreign Exchanges later on.

The custom house of Rio collected in Jany. from Imports and Exports $3,390:741, against $3,451:.39 in January 1881, being from Imports $2,884:66, against $2,972:032, and from Exports $506:069, against $469:007.

The clearances of Coffee during January were 227,741 bags of the official taxable value of $5,163,673, and the shipments were 269,809 bags, 176:684 bags of which were for the U. States.

Hay—
No arrivals, but market well supplied.
We quote to-day 68-70 reis per kilo for Rosario and 55-60 reis for Campana.

Flour—
Arrivals—50 barrels from New York
4,440 do Baltimore.
The sales have been about 15,000 barrels and stock in first hands to-day consist of about 38,000 barrels.
We quote:—

Triests	22:500 to 23:000
Gallego	22:000 22:500
Haxall	22:000 22:500
Dunlop	22:000 22:500
O'Dance	21:000 21:500
McCance	21:000 21:500
St. Louis	20:500 21:750
River Plate	19:000 20:000
Chile	17:900 18:000

Total arrivals in January 45,395 barrels against 42,169 in January 1881.

Indian Corn—
Arrivals 309 bags from River Plate.
Total in January 3,282 bags, against 2,025 bags in January 1881.

Freights—
Every succeeding year tonnage at this season is becoming scarcer and at present moment this port must be looked upon as almost absolutely bare of disengaged vessels.

LAND
For Cultivation
OF
FLAX! FLAX! FLAX!
(A chance for agriculturists)
Splendid Opportunity
IN THE PARTIDO OF
LAS FLORES
On the Southern Railway
Lots from
150 to 500 squares of fertile Land
One lot of 989 squares (of 150x150)
Railway Station on the Land
Very low Price
Half cash, half on time with two years to pay.

For what you pay for rent you can acquire this land the sale of which will be effected by us.

In Our House,
51—San Martin—51
On Friday, February 17th
At 3 p.m.

We shall sell on the above conditions this magnificent camp which formed part of the Estancia 'La Colorada', situated in the partido of Las Flores. The Southern Railway, runs through the land and there is a station on the property.

As the camp is so well know for the excellent quality of its pastures, any praise would only be superfluous. The following lagunas are in the camp:—Del Sauce, del Medio, del Quemado, de la Naranja and others of less importance.

The land has been fractioned into 14 small lots and will be sold in one or more lots at option of buyers.

Lot Nro. 14 comprises the estancia house 'La Colorada', containing 6 rooms with papered walls, wooden floors and a surrounded by two corridors. There is a galpon 10 yards by 30 and another building of three rooms suitable for a mayordomo.

A fine quinta fenced and ditched. Besides there are 4 or 5 puestos in this fraction with zinc roofs. The superficial arrea is 1167 squares and 18,941 square varas with some fine lagunas.

The other fractions are of regular formation and have been made of small size to suit the wants of agriculturists as the soil is excellent and adopted for tillage. The building on these lots will be included in the sale.

For plans and other informotion apply at San Martin 51.

BY BALTAR & QUESADA

For Breeders and Amateurs
The Famous Stud
OF THE
Establishment
Las Barrancas
Mares and Colts
Splendid Thorough Bred RaceHorse Sires, Durham Bulls and Cows
Rams and Ewes.
In one word Liquidation of the celebrated establishment of
Patrick Reid, Esq.
In charge of JAMES CHURCH Esq. Stud of
Las Barrancas
On Monday February 27th
at 12 o'clock

We shall sell the stock of above breeding establishment so justly famous for the many victories achieved on the turf by the excellent animals bred there.

Estancieros are well aware of the patience and untiring zeal displayed by Mr Reid informing this stud farm, as he selected and imported into this country, animals of great merit which have been under the immediate charge of Mr Church. Seldom is there an opportunity of this kind offered, and this is due only to Mr Reid's determination to retire from business.

Zenona, San Jeane, Venus, Toscas, Pichon, etc, have given on our race courses ample proof of their blood by carrying off the highest prizes. With such facts before us, it would be quite superfluous to praise the breed of 'Las Barrancas'.

N.B. There will be a special train and carriages at the station to take out and bring back all parties interested.

Nearly 3 Leagues of Excellent Camps.
IN
Tres Arroyos
Selected about a year ago as the best quality of pastures.
You must see it in order to form an opinion of it and convince yourself of its merits
Base of sale 200,000 m|c p. league.
Six Bills still due to Provincial Government
On Friday, February 27th
At 4 p.m.

At our mart, San Martin 51, we shall sell to highest bidder over and above the conditional basis, [200,600 m|c per league] a splendid piece of camp situated in the partido of Tres Arroyos, land selected by a competent judge.

The quality of this land is unsurpassed according to statements of neighbours who have seen it, and we advise parties interested to inspect the ground and convince themselves of this fact.

There are still 6 bills due to the Government of 16,875 m|c each, payable on August 21st each year from 1882 to 1887 which make the business easy.

The neighbours are Messrs Ramon Udaeta, Cayetano Farias, Bernardo Chapar and Juan Elizalde.

For further particulars apply at our mart, San Martin 51.

2 leagues of lot No. 711
And
4 leagues of lot No. 712
Second Section
Opposite Trenquelauquen
Formerly Pincen's Headquarters
Selected personally by Commander Rivas during the late campaign by the advice of the military engineer.
Base of sale $45,000 m|c,
Per league

At our mart, No. 51 San Martin, on Friday February 17th., at 3 p.m., we shall sell to the highest bidder per cash by order and per account of owner, Commander Rivas, SIX LEAGUES OF CAMP, considered to be the best offered up to present, the tract having been selected personally by Commander Rivas assisted by his military engineer.

There is permanent water on the land, and the class of grasses is splendid.

The adjoining proprietors are Messrs. Atoliva Roca, General Racedo, Cascallares, C.E., and Col. Racedo.

Every information will be found in the *Tribuna Nacional* of December 26th, 27th, and 28th, written by the National Commissioner.

Title deeds faultless.

In the Province of Santa Fe, on the River Parana
Land suitable for an Estancia
6161 metres front by 19,052 metres deep.
SPLENDID WATER
Excellent Grasses
Adjoining the Alejandro and Malabrigo Colonies.
Unsurpassed
Base 2000 pats p. league
On Thursday February 23rd
At 4 p.m,

In our mart, San Martin 51, we shall auction for not less than stipulated base, this splendid estancia land situated in the Province of Santa Fe, alongside the Alexandra and Malabrigo Colonies, in the department of the capital measuring 6161 metres front by 19,052 metres deep, with good supply of water and abundance of grass, high land, well shaped, and admirably adapted for the establishment of a stud farm.

The base of sale is exceedingly low, as the camp is first class, not only topographically speaking, but also for the rich class of its pastures and its inexhaustible supply of water.

Title deeds faultless

For further information apply at our mart.

2½ leagues of very rich and Special Camp
With Permanent Water
In the Partido of
BOLIVAR (San Carlos)
Adjoining the extensive estancia of DON EDUARDO MADERO
And many other notable establishments
Stocked with thousands of Horned Cattle and Sheep
Persons in search of special camps should inspect these
They are superb.
Basis of sale $100,000m|c per league
Payable at long dates
Mortgage in favor of Mortgage Bank
On Wednesday, March 8th, at 3 p.m., at our mart, San Martin 51, we shall auction the above splendid camp by order and for account of its proprietors, who are about to liquidate their partnership. It comprises 2½ leagues of land, with permanent water in a lake on the borders of the land, half of which belongs to Sr. Madero.

The richness of the pastures need no comments. Persons in reach of something superior should pay it, avisit. On the adjoining estate of Sir Eduardo Madero; there are 15,000 horned cattle and sheep, &c, and the same can be said by Messrs. Perez, Rondean, Gazcon, Marvin, Moore, Shult.

We remind interested parties of the last sale of Public Lands, lying 18 to 20 leagues farther out, which fetched $270,000 m|c per league. This land appears in the plan under the names of Castilla and Massot, and adjoining Messrs Anacleto Perez, Gregorio Loubet, Eduardo Madero, Francisco Rodeaun, and Señora Barbarita Alvarez.

Terms of Payment

DON'T FORGET—The buyer may also take out the debt owing to the Mortgage Bank $fts. 8,000, of serie E. This would make the business easy, as the Bank could be paid off very gradually.

For plans and further details, apply at our mart, 51 San Martin 51.

8,000
Hectareas Camp
IN JUAREZ
Say 3 leagues
13 to 14 leagues from the Town
Camp known as LA LARGA, LA SORTIJA and LAS TOSCAS
Tender grass with permanent water. The Camp has been divided into
5 lots of 1333 metres
In one Lot
Payable in instalments
Basis of sale
ps.40 m|c per hectarea
VERY LOW PRICE.
On Wednesday, March 22d.
At 3 p. m.

At our mart San Martin 51, we will sell to the highest bidder (on above conditions) this splendid camp situated only 13 leagues from the town and surrounded with important establishments.

The camp which we offer for sale is only 5 leagues distant from the line of railway to Bahia Blanca, and is known and reputed to be covered with good class of pasture, the greatest part of it, tender grass; There are also several lakes of permanent sweet water on the land.

The conditions of sale are very advantageous with regards to payment, and for this reason we beg to call the attention of speculators in camp to this sale.

The buyer can take over 8 Bills due to Government, $186,680, i. e. $23,335 each.

The land laws allow the postponement of payment for one year on payment of 1 per cent per month interest.

Title deeds faultless.

For further informations apply at our mart 51 San Martin.

BY BALTAR & QUESADA

1 1|2 league Camp
In Tres Arroyos
6750 metres frontage by 6000 metres depth
Along the Arroyo de los Gauchos
Permanent Sweet Water
Excellent Pasture
Basis of sale $ 200,000 m|c.
Friday February 24th
At 3 p.m.

At our mart, San Martin 51, we will sell to the highest bidder for cash, on the conditions named, a piece of camp situated on the Arroyo de los Gauchos, and adjoining Navarro Viola, Juan P. Maciel, Abraham Quintana, Valentin Pereyra.

The camp is superior in quality and its pasture unsurpassed. There is also a brick house of 3 rooms with zinc roof.

The land is at present under cattle, but these will be driven off as early as possible in order to place the purchaser in possession of the property.

There are still 6 bills due to Government on this land, and the buyer will have the option of taking them over or not.

For further details apply at our mart 51 San Martin.

Dos Leguas de Campo
Partido de Tres Arroyos
A 14 leguas de Juarez
PASTOS MEZCLADOS
Base de venta $170,000 m|c
En nuestra casa
7—CALLE ALSINA—78
El Viernes 3 de Marzo
A las 3 de la tarde

Remataremos por orden terminante de su dueño, con la base arriba fijada, una cuarta parte dinero de contado y el resto por iguales partes a 3, 6 y 9 meses de plazo sin interes.

Una area de campo compuesta de dos leguas cuadradas de abundantes pastos, y cuyos linderos son los señores Emilio J Perez, Juan P Caurel, Puerto de la canal y J A Lousteau.

Uno de los mejores elogios que podemos hacer de estos campos es que el Gobierno de la Provincia vendio el 7 de Febrero en este mismo partido a razon de $oo,ooo m|c legua, y en el de Juarez por mas de un million de pesos legua hace apenas un mes.

El dueño de este campo al ponerlo la base de 170,000 m|c legua, ha tenido en vista atraer el mayor numero de los pequeños capitalistas para que ellos puedan comprar areas menores, relativamente a las que hoy se estan vendiendo y que ellos determinan en el acto del remate cual es el valor de esta fraccion.

Este campo esta perfectamente situado y dista unicamente 14 leguas de Juarez.

Titulos perfectos.

El remate se efectuara en nuestra casa calle Alsina 78.

e 141 f14 m3

EN SEGUIDA
400 cuadras cuadradas
En el Pueblo de RAUCH
A 8 leguas del Pueblo de Las Flores
Base de Venta $100 la cuadra
En nuestra casa
78—CALLE ALSINA—78
El Viernes 3 de Marzo
A las 3½ de la tarde

Procederemos a la venta en remate publico y dinero de contado:

De una fraccion de campo compuesta de 400 cuadras cuadradas propia para sementeras o una majada de ovejas.

Este campo dista 8 leguas del pueblo de Las Flores y linda por el N. O. con Don Ezequiel Sallago, N. E. Marcelino Silva, S. E. Sabino Martinez, S. O. Pedro Salaberry.

La base fijada para la venta es infima: 100 ps la cuadra cuadrada, pudiendo calcularse que este campito daria en arrendamiento 6 a 8000 ps anuales.

Titulos de primer orden.

De la gran PROPIEDAD
ALTA Y BAJA
Calle Piedras Ns 184y186
De orden de sus propietarios
Tasacion $1,350,000
BASE PARA LA VENTA
750,000 ps. m|c.
El Viernes 3 de Marzo
A las 3 en punto de la tarde

Procederemos a rematar a la mas alta postura y dinero de contado, o bajo la base de Setecientos cincuenta mil pesos moneda corriente.

La importante y central propiedad que se designa, edificada en terreno de 17 varas de frente por 45 varas de fondo, en dos hermosas casas, cuyo detalle es el siguiente:

CASA BAJA—Escritorio, sala y ante-sala y tres dormitorios espaciosos, otra pieza mas, comedor que cuadra el patio, dos cocinas, cuarto para carbon, despensa y dos piezas de entre suelo para el servicio.

CASA ALTA—Gran vestibulo, escritorio, salon y ante-sala, cosiurero, cuatro espaciosos dormitorio, comedor, un esplendido cuarto de baño con diferentes duchas y aparatos para baño caliente, 2 piezas en el entre piso y cinco en el ultimo, cocina y ante cocina, dos lavatorios etc.—En Suma; dos casas construidas a todo costo, teniendo la casa alta gran entrada para carruage y una esplendida escalera de caoba.

Las dos casas redituan hoy casi el 10 por ciento al ano o sean 6,000 pesos m|c, estando alquiladas semamente baratas; pues solo la casa alta ha dado hasta 4,500 pesos mensuales.

El local no puede ser mas central.

Exigeremos al comprador el 6 ojo sobre el valor de la venta antes de firmar el boleto.

Por mas datos ocurrase a nuestro escritorio San Martin 90.

Doce Leguas
MAGNIFICOS CAMPOS
Pastos Inmejorables
Para toda clase de Hacienda
BASE PARA LA VENTA
1300 ps. f. Legua
Con descuento del 6 o|o
Mucha atencion a este remate
Lean el detalle mas abajo
El Viernes 24 de Febrero
A las 2 de la tarde

En mi escritorio, San Martin 31

Vendere los campos arriba espresados, la mejor recomendacion que de ellos puedo hacer es copiar los datos sacados oficialmente del Departamento Topografico de Cordoba que es el siguiente:—

Detalles de las suertes num. 4 serie A Departamento Rio Seco, y los num. 7 serie B y num. 8 serie A Departamento de Tulumba.

La primera esta situada en la Pedania de la Candelaria; como a 20 leguas al Sud Este de la Villa Maria, linda al Norte y Este con terrenos fiscales y al Oeste con la suerte N. 3. Este campo es bueno, para todas clases de haciendas y sus pastos buenos y abundantes, tiene montes y algunas isletas de Chañares, las aguas a 2 varas en su mayor hondura. La segunda esta situada como 2 leguas al Nor Este del puesto de Fierro, linda al Norte con la suerte num. 4 espresada mas arriba.

Este campo es inmejorable, sus pastos superiores para toda clase de hacienda, tiene monte y el agua esta a dos varas; y la tercera esta situada en la Pedania de Mercedes, linda al Sud con la suerte num. 7 y a los otros rumbos con terrenos fiscales.

Este campo es de buenos pastos para toda clase de hacienda, las aguas alcanzan a 2 varas segun consta de los expedientes que existen en el archivo de este Departamento a que en caso necesario me refiero, en fe de lo cual firmo la presente en Cordoba a 27 de Enero de 1882.

Por autorizacion:

A REVUL.
Secretario.

Despues de este informe; esta demas todo lo que se puede decir; solo hare recordar que estos campos son muy superiores a los que vendieron por orden del Gobierno el 7 de Diciembre, y que alcanzaron hasta 3400 pfts. la legua, Ojo pues, y aprovechar la ocasion.

Por planos y demas datos a mi escritorio S. Martin 31, 2do patio.

LONDON LETTER.

(From our Own Correspondent)

HOME NEWS.

January 18th, 1882.

The Parliamentary recess is waning fast. Mr. Gladstone returns from Hawarden like a lion refreshed, Mr. W. H. Smith issues invitations 'to meet Sir Stafford Northcote and Lord Salisbury,' implying that by consent of the Marquess Sir Stafford is to be recognised Leader of the Opposition. Meanwhile old Whigs like Lord Zetland, and cantankerous noblemen like Lord Grey, followed by Lord de Grey, a son of Lord Ripon, secedes from Mr. Gladstone's land-reforming and democraticising party, and will probably assist Lord Salisbury, who is reported to be bent on opposing in the House of Lords all Radical measures that come from the Lower House, and in spite of any outside clamours. Meanwhile after the Bradlaugh business is settled, the first question to be discussed is the reform of the procedure of the House itself. Some indications as to what the new rules will be have been published. It is proposed that the Speaker himself or Chairman of Committee can put the proposition whether the question before the House 'be now put.' No debate will be allowed, and the question will be decided at once by division. The exceptions are in cases of votes of supply or extraordinary military and naval expenditure. Certain classes of bills are to be referred to large select committees. In regard to those bills the stage of committee in the whole House will be dispensed with. No member is to have the power of moving the adjournment of the House before the orders of the day have been reached; but provision will be made for cases of urgency. In committee of the whole House no member can move more than once in the same debate that the chairman report progress or that he shall leave the chair. Provision will be made to give the Government more complete control of the House on Government nights by being able to arrange the order of business their own way. There are many other details which will not interest you at present. The reforms will not be radical, nor will they quite amount to what is called a 'cloture.' They may end, perhaps, in some very English compromise-loving method, not unlike what on the North-London Railway is known as the 'permissive block system.'

If the government gets a fair start on the Bradlaugh and procedure questions it will carry everything before it; and in the present humour of the tenant, farmers who have been disgusted by the speeches of Mr Jim Lowther and other conservatives of that stamp, the bye-elections will one after the other fall to the Liberals. If the government makes a false start, we shall have a general election and no one can fortell the result which may be effected by any casual occurrence at home or abroad that may strike favourably or unfavourably the popular prejudice. But to the politician who looks beyond the questions of the day, the result of the elections is of small importance. In this country there is now only one question, —the Land between existing institutions and pure democracy. The battle has fairly commenced between the ancient nobility of England whig and tory, and the new order of things. The coming session of parliament will be only preliminary, but the gradual secessions from one side to the other, and the mustering of forces will almost call to mind the events of the seventeenth centnry.

A very curious explanation of the explosion on board H M S Doterel has been suggested by a similar but less serious accident which occurred lately to H M S Triumph, In the latter case the accident occurred from the explosion of vapour from some Xerotine Siccative an anticorrosive used for the ship's plates. The carpenter of the Dotorel, one of the few men saved, is ready to depose that a quantity of this liquid was in the paint room, to which a few minutes before the explosion he sent one of his mates on an errand. It is thought that the first explosion on board the Dotorel must have arisen from the leakage of Xerotine. There is no doubt that the second explosion was in the powder magazine.

The eminent French electrician M. Mercadior has adopted the photophone of Professor Bell to telegraphy. By the intermittent action of a ray of light on a selenium cell Bell's instrument conveyed a humming sound. Mercadier eclipses the beam of light by means of a rapidly rotating disc which produces regular vibrations or intermittencies,and consequently a distinct musical note reinforced by resonators. The advantage in Mercadier's system which I have not space to explain in detail, is that by increasing or diminishing the speed of the rotating disc different musical notes are naturally produced and with the same wire and transmitter. Therefore it is only a question of multiplying the number of transmittors at one end and of telephones at the other to increase enormously the number of messages received by the clerk from the same wire and from different directions.M. Mercadier reckons that with 10 transmittors and ten receivers at each end of the line he can send 200 dispatches of 30 words each per hour or 100 words per minute in either direction. The effects of induction, so troublesome in speaking by telephone, are not experienced in this process, owing to employment of musical notes and resonators. I may add that M. Mercadier is himself a great musical theorist; but an ordinary clerk would require a long trainiug to translate a message delivered by sounds varying in pitch.

An amusing instance of modern adaptations of mechanical science is the recent suggestion that by an apparatus easily attached to a ship on the stocks,a lady instead of going to a port, can from her own drawing room in a midland county, launch a vessel, and by th e aid of the telephone name her.

Agents of English insurance companies in Buenos Aires, seeing that English companies from their late returns have been most unfortunate in their foreign business, will be interested in the experiments just made at the Crystal Palace in asbestos paints which seem to be an effective preservation in cases of fire.

Foreign affairs continue to show signs of reviving interest,but I must leave them until the end of the week. I may mention that the *Nord*. published weekly, contains an article supposed to be inspired by Prince Bismarck, in which it is complained that the old forces of Church and State have fallen into decay, the Church is disregarded, the army inspires no confidence, modern society is in chaos. Hebraism has suddenly revealed itself as a formidable person wielding the most terrible engines of modern policy, finance and journalism. The article calls upon European Governments to forget their rivalries and ward off the common dangers, socialism and democracy. The amusing part of it is that by his economic measures Prince Bismarck, in a certain sense following Louis Napoleon, wishes to combat socialism by applying the old recipe—'similia similibus curantur.' In one of my late letters I alluded to the question of 'finance' as a new political elemeut; and only within the last day or two letters from Paris announce the trouble M Gambetta experiences, from being beset by his correligionists and 'Messieurs les chevaliers de la Bourse.'

One strange bit of news to finish. Ten thousand tablets with inscriptions have been found in an old Assyrian ruin near Bagdad and are on their way to London, to be deciphered. It is thought possible by M. Rassam, the Assyrian archaeologist, that these are the hitherto lost records of antediluvian history deposited for security by Noah himself when the weather began to look threatening.

THE PANAMA CANAL.

DEADLY EFFECTS OF CLIMATE, NO PROGRESS IN THE WORK, AND LITTLE IN PROSPECT.

We find in the last number of the *Eisenbahn*, a technical paper published in Zurich, a letter from an engineer who had recently returned from Panama, after having inspected the work and prospects of the Canal. We translate the letter literally:—

'M. de Lesseps, who cut the Suez Canal,wanted to cut the Panama Isthmus also, and everybody came forward to assist him. It was called a great work, and not a capitalist ventured to hesitate. People brought forward their money for the great glory of the country, and the Company was held to fulfil the whole or a part of its seductive promises. But, alas! how many deceptions have there been.

'The Board of Management of the Panama Canal Company, who have to prepare for the second payment, which must be made early next January, find it necessary to revive the enthusiasm of the stockholders—an enthusiasm which has been justly dampened by the news from the Isthmus. For this reason, the last *Bulletin of the interoceanic Canal*, endeavors to attenuate the importance of the facts related by the independent and disinterested press.

'It is impossible for us, who know and have seen, to allow such deceptions to pass under the eyes of the public without indignantly protesting. Knowing the Isthmus of Panama, what has happened there and what is still occurring, we think it our duty to state the facts in all their rigorous exactness.

'What embarrasses the Company at present, according to the official *Bulletin*, is how to overcome the bad effects of the climate on the personnel. But the first care of the management (knowing as they did the country they had to deal with) should have been to endeavor to have the necessary attendance not so much to preserve, as to cure the personnel, from the diseases to which they knowingly exposed it.

'That part of Central America which lies between Aspinwall and Panama, and which is to be crossed by the canal (planted out by Messrs. Wyse and Reclus on an old American map drawn up by an engineer named Totten), is in reality totally uncultivated and mostly covered with marshes, the vicinity of which constitute a permanent danger for even the natives. There are two seasons only — summer, from December 1. to April 30,and winter from May 1. to November 30.

'During the summer, which is the least unhealthy season, some work can be carried on and the mortality is only from 23 to 25 per cent. In winter, however, which is the rainy season, all work is exceedingly difficult, if not impossible. The ground at this season is completely soaked and under water, and the rate of mortality rises at once to 30 or 35 per cent.

"A commission was sent to the Isthmus in 1880 to establish the line of way proposed by Messrs. Wyse and Reclus, and which line the contractors, Couvreux and Hersent, were to execute for the sum of 512 millions francs, at least, if we are to believe the newspapers. On the return of this commission, steps were taken to issue shares; but the proceeding was a failure, for the press, without going into the technical part of the question, was almost unanimous in rejecting the project, basing their objections, on the essentially bad climatic conditions of the country.

"The advocates of M. Lesseps' plan would not acknowledge themselves beaten, however, but began a new campaign, in which the opinions of the papers underwent a radical change; for, this time carefully avoiding alluding to the sanitary conditions, they presented the project under a new face and succeeded in having it favourably received by the public. The second attempt of the promoters of the plan was successful, the public had paid in their money, and it became necessary to make them believe that work would be at once begun.

"To begin the work, it is very easily said, but it is not easy. In order to save appearances, the contractors, Couvreux and Hersent, who were charged with the surveys, immediately organized a first batch of the survey party, which left St. Nazaire, January 6, 1881. A few days after the arrival of this party at Panama, it was announced in Europe that the work was begun, as is proved by the celebrated dispatch with which so much noise was made: Everything going well. Work begun. Surveys for work are being rapidly pushed; good results; health perfect.'

"The head agency, which installed itself as comfortably as possible at Panama, sent out the engineers into the interior of the country, so as to give some color to the despatch. Only, having little concern about them, they forgot to give them a covering for the night, and often even instruments for surveying, so that the personnel was actually prevented from doing any useful work. The company knew this state of things, however, and what they might expect from a personnel sent without proper outfit to a country where none could be obtained. In order, however, to accentuate the good effect produced by the famous telegram, the shipments of engineers, etc., were multiplied, but not the slightest thought was given to organizing sufficient accommodations, and the late comers of course, found themselves in the same condition as their predecessors.

"The successive batches of engineers at such short interval shelped, along with the incessant puffing, to keep the public in error, believing, as they did, that work was in full blast. Such a state of affairs, it may well be imagined, contributed largely to the small progress that was made in the necessary surveys; but, instead of definite information with regard to a project in which they have invested considerable sums, the public has only been given what may be called 'taffy.' So far as the works a reconcerned,what ever may be said about them, they cannot be begun, for there must be first definite surveys showing the place where the said works are to be executed. The line of way, presented by Messrs. Wyse and Reclus, and which is based on what could be gathered from an old map, it acknowledges to be an absurdity from a technical point of view. We cannot designate as works some soundings in the *probable axis* of the canal, and which were made by a few illustrious persons who celebrated the occasion last June with champagne, and doubtless drank to the health of the shareholders. The Company, with the view of allaying the public uneasiness, promises to give statistics which they say beforehand will be reassuring. A step further has been taken when they have the boldness to affirm that only very simple remedies are required to guard against the fatal effects of the climate. The deaths of Messrs Blorine and Etienne are the only ones mentioned. Why have not the deaths of Messrs Geladop, de Montfaucon, Dzlembowski Ostinelli, Bertrand, Drussel, Tellier, Barpier, Dumouriez, Darelle, Toussaint, Persons, &c., *most of them heads of departments*, not been added? The reason of the sickness is ascribed to the negligence of the employes to call a doctor. We know of a case where a doctor was twice sent for, and only came finally when a special messenger was sent. It is unnecessary to state that, like the carabineers of Offenbach, the amiable disciple of Æsculapius came too late. We shall only add a word—letting the reader judge for himself. The following is a copy of a circular sent by the head agent of the canal:

Panama, June 11 1882.

M.le Chef de Brigade: The head doctor having apprized the head agent that the Strangers' Hospital was crowded for the present, you are requested not to send your sick to Panama until further orders, unless they are seriously ill.

(Signed) *A. Reclus.*

The writer then describes the manner of burying the dead engineers,—the bodies were merely 'dumped' into a pit, and continues: 'The *Bulletin du Canal* promises to give the truth and the whole truth to be shareholders. thitherto it has been kept, at all times and all places, from them. Those of my colleagues who like myself, had the good fortune not to leave their bones on the accursed soil, know something of the matter. I will reserve for another time the consideration of the technical part."

A Solemn Requiem Mass for the repose of the soul of the late Patrick Murphy, will be celebrated in Rojas on the 18th of February. His wife and family invite relations and friends to attend.

Lots Nos. 237, 228, 227, 212, 211, 162, 161, 134, 133, 106, 105, 79, 78, 51, 50, 29, 28, 1, have each a superficial area of 612 hectareas 80 areas.

The basis of the sale is $20 m/c per hectares.

All bid for will be put up to auction and the buyer may claim 30 lots adjoining at same price as be paid for first lot.

No person or Company can buy more than 30,000 hectareas.

The price of the land must be paid one tenth part cash and the remainder in 8 equal parts, one of which will be payable at the end of each year. Buyers must sign Bills for these instalments.

Should the Bills not be paid when due, the Land Office can enforce payment or declare the contract void, the buyer in this case forfeiting his first instalment.

If the amount of sale is paid cash, or, if at any period it be found convenient to pay the instalments not due, a discount of 6 per cent per annum will be allowed on said instalments.

The survey of the land must be paid at the rate of $1 m/c per hectares.

Buenos Ayres, February 11th 1882.

IGNACIO FREIRE.

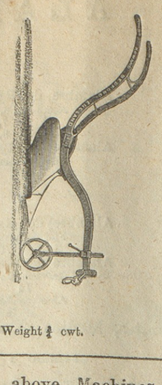
HOWARD'S CELEBRATED PLOUGHS

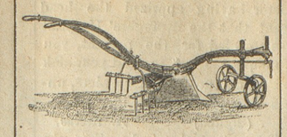
Howard's Small Ridging Plough



A small useful iron plough, fitted with a double mould board or earthing up body, and much used by maize and vegetable growers.

Weight ¾ cwt.

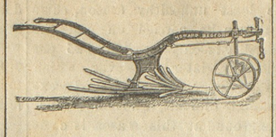
Howard's Water-Furrow Plough



This is a modification of J. & F. Howard's Ridging Plough. It is used for making the water furrows for surface drainage on arable land; the peculiarity of its working is that the earth thrown up on each side of the furrow by the mould boards, is moved away from the edges of the furrow and is harrowed down level with the field, a level surface is thus left for the Reaping Machine, and drainage is facilitated.

With steel breasts, weight 1¼ cwt.

Howard's Potato Ploughs.



With a pair of horses, this implement will raise three to four acres of potatoes in a day; it leaves fewer in the ground than hand digging, and the roots are raised with less bruising or scratching of the skins than by any other method. These Ploughs have stood the test of many years experience, and the demand grows larger annually.

D, fitted as above, weight 1½ cwt.
D D, fitted as above, weight 1¾ cwt.
S B, fitted as above, weight 1¾ cwt.
B P, fitted as above, weight 2 cwt.

The above Machines kept in Stock by the Principal Hardware Merchants.

Dysentery, Cholera, Fever, Ague, Coughs, Colds, &c.

Dr. J. L. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomitting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

AS SURE AS EGGS ARE EGGS.—An American Editor declares that 'out West' eggs are fetching two-pence each, and that the hens do not care about business even at this price. We fancy this must be very far 'West,' or surely our American cousins would ere this have resorted to the use of 'Borwick's Gold Medal Custard Powder,' which renders the housewife perfectly independent of the domestic fowl, since it produces the most delicious custards, blanc-manges, &c, at half the usual cost, and in much less time. The hens had better be 'cautious about 'striking,' or some enterprising storekeeper will introduce this household boon, and ruin their trade for ever. There is no special 'laying season' for 'Borwick's Custard Powder,'—one can keep it always on hand in the neat little packets and tins in which it is sold. Can be had of all Storekeepers in the Colonies.—*Civilian.*

Carlow Lay College

AND

ST. MARY'S PREPARATORY SCHOOL

Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stoneyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened.

Rector—Rev. William P Bourke.

Matron and Professor of French and Music—Miss Finneran.

English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender yea require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, £30.

Banco Hipotecario

Esta abierto al servicio publico todos los dias de trabajo desde las diez de la mañana hasta las cuatro de la tarde.

Presta sobre hipoteca con reembolso a largos plazos.

Por el valor del prestamo da cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.

El valor del inmueble hipotecado no debe ser menor de $f. 2000 ni el prestamo menos de $f. 500.

Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.

El interesado se obligara a pagar una anualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, del fondo destinado a amortizarlo, y de la comision del Banco. La anualidad se divide en trimestres, y las cedulas que al presente da el Establecimiento son:

Serie E.

Dura 20 años 100 dias 6 o/o de interes, 2 o/o de amortizacion y 1 o/o de comision.

Pagadas las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones hacia el Banco, El deudor podra libertar el inmueble, en todo o parte, anticipandose el contrato.

El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa, y espresando el mismo tiempo su estension el gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.

Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.

Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteos a la par, y con anticipacion de un trimestre.

Las rentas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Julio y de 1 a 15 de Octubre.

El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.

El mismo Banco Hipotecario recibe sus Cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.

El deposito se admite desde una Cedula de $f. 50 que es el minimum de las que emite el Establecimiento.
